Bachelors in Software Engineering

Iqra Univercity, Oct 2018 - Dec 2023

My Self

I'm a skilled full stack web developer with 1 years of experience in creating user-friendly websites specializing in cutting-edge technology to build innovative solutions that meet the needs of today's digital world. I stay updated with the latest frameworks like React and Next.js. I have a keen eye for detail, focus on usability and performance optimization. I enjoy collaborating with cross-functional teams and have strong communication skills. I'm passionate about staying up-to-date with emerging trends and technologies in web development.

Experience

Fiver

Full Stack Developer

May 2018 – Present

- Tailoring websites to meet the unique needs of clients, offering custom web development services that align with their business goals and branding.
- Committed to delivering efficient and timely services, offering a quick turnaround on web development projects without compromising on quality, enabling clients to establish their online presence promptly.
- Ensuring that websites are not only visually appealing but also function seamlessly across various devices, providing a user-friendly experience on desktops, tablets, and mobile phones.
- Fostering open communication and collaboration with clients throughout the development process, actively seeking feedback to create websites that truly reflect their vision and objectives.

Wigatech Solutions

Front -End- developer

July 2023 – Aug 2023

- Collaborating with cross-functional teams to design and implement intuitive and visually appealing user interfaces for web applications, ensuring a seamless and engaging user experience
- Sliced designer compositions from PSD format and created interactive website utilizing HTML5, CSS3, Javascript, ReactJS, and plugins.
- Working closely with backend developers, UX/UI designers, and other stakeholders to understand project requirements, provide input on technical feasibility, and contribute to a collaborative development environment that fosters innovation and high-quality solutions
